

CARE COORDINATION

Connecting you to services

Care Coordination connects the person served to mental health and substance use treatment facilities, medical providers, housing, vocational services, and much more.

"We are helping hands for individuals that need connection to care."

Our Care Coordinators offer a single point of contact until the person served is adequately connected to care that meets their needs. Our goal is to educate and empower the person served.

Serving in solidarity

We also have a team of Peer Support Specialists who have lived experience recovering from mental health and/or substance use disorders. They are trained and certified to support those currently struggling to recover.

Who qualifies for Care Coordination?

An individual must be referred to Starting Point for Care Coordination services. Referrals come from:

- Outside providers like Baptist Health, MHRC, Wekiva Springs, Gateway, UF Health, or local justice systems

OR

- Starting Point staff (in order to qualify for an internal referral, the individual being referred must be presently engaged in services at Starting Point)

Care Coordination provides:

- Connection to mental health treatment services (therapy, psychiatry, etc.)
- Connection to substance use treatment services (medication-assisted treatment, detox, etc.)
- Connection to medical providers (primary care physicians, dental, etc.)
- Assistance exploring housing options
- Assistance finding local support groups
- Help applying for transportation assistance
- Support and guidance through the mental health or substance use recovery process
